# INTRODUCTION & PROBLEM

What's the Challenge?  
Why Does This Matter?

# INTRODUCTION

I am Saurabh Sonwane, a dedicated Data Analyst at Lio. Expertise in translating complex data into actionable insights. Here to guide the merger using data-driven insights.

# LIOCINEMA

A platform owned by Elliance Industries, launched in 2016. Known for streaming Indian Premier league (IPL) and FIFA World Cup.

# JOTSTAR

A platform owned by The Dalt Wisney Company, launched in 2015. Provides access to international shows and movies.

# PROBLEM STATEMENT

*What's the Challenge?*

Understanding user behavior & content consumption.

Identifying trends in upgrades, downgrades, and inactivity.

Optimizing content strategy post-merger.

*Why Does This Matter?*

A well-planned strategy can maximize subscriber retention & revenue.

# OBJECTIVE

Analyze performance and user behavior to optimize post-merger strategies.

Establish **Lio-Jotstar** as the leading OTT platform in India.

## END WITH

The strategic merger of Lio and Jotstar positions the combined platform as a formidable player in the Indian OTT landscape. By leveraging their strengths in regional content, sports streaming, and bundled services, the platform can cater to diverse customer segments.

However, addressing user inactivity, enhancing content variety, and implementing proactive retention Strategies will be critical for sustaining long-term growth.

THE MERGER IS POISED TO ACHIEVE  
SUSTAINABLE SUBSCRIBER GROWTH  
AND MARKET LEADERSHIP IN THE  
COMING YEARS.
